

KIGALI RWANDA
150-300,000 tons/year
natural organic fertilizer
Lake Ruhondo - Musanze
starting in 2019-2020

17 November 2020

To: Whom it may concern.

Project: Construction of a natural "green" organic fertilizer factory in Rwanda – Africa.

Subject: Letter of thanks and appreciation

Renewgreen Ltd. has appointed and partnered with **Technisup GmbH** as it's exclusive consultant and project promotor and as sole representative for **Renewgreen Ltd.** in all and any related matters of the above named project.

We hereby acknowledge **Renewgreen Ltd.**, and express our sincere **Thanks** to **M/s TechniSup GmbH**, represented by **Mr. Mohammad Fchich**, as its company CEO for their great support and high professionalism in assisting us in applying, negotiation, preparing and conducting meetings and calls with the concerned international and local financers and investor(s) and in providing assistance and support in order to secure the conclusion of the natural organic fertilizers project finance contracts.

TechniSup's team of consultants managed by **Mohammad** has shown a high level of commitment and loyalty during the project period - 5 months - and are still working with their high level of passion, long experience and creativeness to shape the best financial structure and develop all of the legal lenders agreements.

We highly appreciate **TechniSup** cooperation, knowledge and support and wish them all the best.

Best Regards

Professor Donald D. Adams
